

Product Change Notification

TE Connectivity

Product Change Notification: P-15-011635

PCN Date: 11-MAY-15

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:
TE's program "smart design on Silver use" for TSC Relay

Description of Changes
The NO, CO and NC contacts of the TSC series for the AgNi gold plated contacts are to be modified from massive to bi-metal versions. Numerous tests have been completed and TE confirms the same performance for the plated contacts. Start for implementation into the series production is planned for CW32/2015.

Reason for Changes:
Product improvement. This change is being made to align the AgNi gold plated contact material, There is no change being made to the contact material or composition

Estimated Dates:

Last Order Date (Obsolete Parts Only):	First Date To Ship (Changed Parts Only):
	02-AUG-2015
Last Ship Date (Obsolete Parts Only):	Last Date for Mixed Shipments: (Changed Parts Only):
	22-AUG-2015
